#### Basic Information of IHPL:

- ❖ The IHPL, Coimbatore, was formally inaugurated on 2<sup>nd</sup> December 2004. The office is sprawled over 1.5 acres in the city of Coimbatore in Tamil Nadu, India.
- ❖ The main object of the Company is manufacturing of various types of Holograms like 3-D Display holograms, Transmission holograms, Security holograms, Holographic Optical Elements, Hologram-origination system and to market and export of hologram related materials for security systems, displays and product and document authentication.
- ❖ The resources at IHPL include: Conduct Research and development in the areas of Optics, Holography, Opto-Electronics and Photonics, including Bio-Photonics, Micro and Nano Photonics and develop technologies and machineries of relevance and to do trading and business of the above.

IHPL, understands clearly the differences and similarities in academic challenges between its own environment and that of KASC. It also believes that cooperation with KASC in Research and Exchange of Knowledge will benefit both sides.

#### Basic information of KASC:

- KASC is a grant-in-aid institution recognized by the state government and the University Grants Commission offering Post Graduate training and Research in Arts, Science and Information Technology disciplines. The College offers courses of study in 22 under graduates, 15 post graduates, 11 M.Phil and 9 Ph.D programs. The College has the required intellectual and infrastructural resources supported by its strong commitment to prepare graduates for global competitiveness.
- KASC sees many differences and similarities in culture and in academic challenges between its own environment and that of IHPL. The college

Chairman / Managing Director

also believes that there exists a mutual interest in improving Research and Exchange of Knowledge through a partnership.

Both IHPL and KASC agree

- That cooperation will enable the participants to successfully investigate and resolve some of the important issues related to research, study and service, and that through cooperation each institution will be stronger in partnership than it would be otherwise.
- That the institutions are willing to offer mutual support in the following areas:
  - a) Train human resources
  - b) Exchange of Technical and Scientific knowledge particularly in the field of NanoScience.
  - c) Joint Collaborative projects
  - d) Research cooperation in other upcoming disciplines.
- That the commitments outlined in this document can be amplified or modified based on the specific agreement for particular cooperative purposes between IHPL and KASC.
- That the present document shall be considered as current and open to new actions upon mutual agreement of both parties through written notification. The revised agreement would contain the causes and motives for such revisions. Furthermore, if changes of this nature should take place, special consideration shall be given to the timely conclusion of ongoing projects that might be affected.

Chairman / Managing Director

This agreement shall remain in effect for a period of 5 years from the date of its signing. At the end of the five-year agreement period (the last 90 days), the participating Institutions will jointly assess progress made during the initial period. Based on this analysis, the participating Institutions will agree on the course the partnership shall take, subsequent to the review.

The present document is formulated and signed in two originals. One original will remain in possession of IHPL and the other shall be kept by KASC.
